ACCESS TO INFORMATION ACT 2021-2022 ANNUAL REPORT TO PARLIAMENT

Introduction

The *Access to Information Act* gives citizens, permanent residents, or any person or corporation present in Canada a right to access information contained in government records. Ministers and heads of agencies are responsible to ensure that their organizations comply with access to information legislation.

This is the annual report to Parliament on the administration of the *Access to Information Act* within the Canada-Nova Scotia Offshore Petroleum Board (CNSOPB) during the Board's financial year, which ended March 31, 2022, required by Section 94 of the *Act*. This report is tabled in Parliament as required by Section 94 of the *Act*. During the reporting period, the Board received no requests.

The Board

The Canada-Nova Scotia Offshore Petroleum Board was constituted in 1990 under the federal *Canada-Nova Scotia Offshore Petroleum Resources Accord Implementation Act*, S.C. 1988, c.28 (the "Accord Act"), and the provincial *Canada-Nova Scotia Offshore Petroleum Resources Accord Implementation (Nova Scotia) Act*, S.N.S. 1987, c.3, to regulate oil and gas exploration, development and production in the Nova Scotia offshore area. The Board's mandate is the:

- health and safety of offshore workers;
- protection of the environment;
- management and conservation of offshore petroleum resources;
- compliance with the provisions of the Accord Acts that deal with Canada-Nova Scotia employment, industrial benefits;
- issuance of licences for offshore exploration and development, and
- Resource evaluation, data collection, curation and distribution.

The Board reports to the federal Minister of Natural Resources in Ottawa, Ontario, and the Minister of Natural Resources and Renewables in Halifax, Nova Scotia. The Board is composed of five members and one alternate member; the Chair appointed jointly by the federal and provincial governments, two members and an alternate member appointed by the federal government and two members appointed by the Nova Scotia provincial government. Currently there is a vacancy of one Federal Board member and an Alternate Federal Board Member. The Board has, at present, a staff of 17 employees, located at the Geoscience Research Centre (GRC) in Dartmouth, Nova Scotia and working remotely. The Board is designated as a "government institution" in Schedule I of the *Access to Information Act*.

Disclosure of Information

Operators conducting exploratory or development activities are required to file reports, and provide specified information and samples to the Board, as a condition of receiving approval for proposed activities. Section 122 of the *Accord Act* provides that, in general, information or documentation provided for purpose of Part II or Part III of the *Accord Act* is privileged and may not be disclosed without the written consent of the person who provided it. This does not apply to the disclosure of particular classes of information after the expiry of specified confidentiality periods. It is the Board's policy to make such information available to the public in accordance with established administrative practice. The Board has published a listing of all such information available for release, which is updated monthly.

The Board's office is staffed by 17 full time employees, five directors and 12 staff. Of these one is 100% located at our archive facility in Dartmouth at the Geoscience Research Centre (GRC), and seven employees work 50% remotely and 50% at the GRC. Nine employees work 100% remotely. Our staff is comprised of health & safety, environment and conservation specialists that provide direction and regulation to oil and gas exploration companies in the offshore of Nova Scotia. The remainder of staff provide technical and administration support. The GRC staff handles archived data submitted by offshore operators as required by the authorization process and samples submitted from offshore exploration.

The Board maintains a statutory registry of licences, referred to in the *Accord Act* as "interests", and instruments affecting them. The registry system is maintained by an employee designated as the Registrar, who prepares abstracts of interests and registered instruments, and responds to requests for copies of registered documents and provides other derivative information. Requests for registry information and requests to the GRC for technical information and access to samples constitute the majority of requests for information, and these are routinely handled without recourse as informal requests.

The Board also receives requests from the public and media for general information related to offshore petroleum activities. Many of these requests are made informally and the Board is usually able to provide such information. The remainder of the requests received are handled formally according the *Access to Information Act*. One Access to Information coordinator handles all ATI requests, with assistance from general counsel.

Policies, Procedures and Training

The Board has developed a formal policy and procedure for responding to requests for access to information. In this reporting period, no new policies or procedures were implemented or updated this year. Formal requests for information are referred to the CNSOPB's Access to Information and Privacy Coordinator (coordinator). The coordinator has delegated authority by the Chairperson of the board of directors, along with the CEO, General Counsel, and Director, Information Services.

Informal, on-going training is completed regularly for all staff as needed. Each new hire is given a Records and Information Management orientation, as part of this orientation they are given training regarding Access to Information. Throughout the year during staff meetings, the ATIP coordinator will update the stats of requests, complaints and changes or challenges to processing ATI. The ATIP coordinator also works with subject specialists to help them understand the exemptions and exceptions and the Access to Information Act in general. During this reporting period we had no new staff and a drastic reduction in staff due to budget cuts, therefore no staff has been oriented to the *Access to Information Act* and *Privacy Act* and our internal policies. This is consistent with the previous reporting period. During this reporting period the ATIP coordinator did not provide any formal or informal training to staff, and attended multiple Access to Information & Privacy community meetings virtually.

Statistical Reporting

No requests were received this reporting year. This is down by one compared to 2020-2021 when we received one request. The number of pages reviewed has decreased from the previous year due to no requests. The continued decrease in requests could be attributed to a decrease in offshore activity. No extensions were required, as no requests were received. Two informal requests were received, and responded to within 15 days. Covid-19 has not impacted our ability to process requests during the 2021-2022 reporting year. Two third party consultations were received and closed during 2021-2022.

Issues Raised as a Result of Access to Information

No new complaints for this reporting year were received. This is consistent with 2020-2021, 2019-2020, 2017-2018 and 2016-2017 where no new complaints were received. This is down from 2018-2019 when we received three new complaints. One complaint from the 2009-2010 reporting period is still open, waiting on an investigator.

Monitoring

No formal monitoring is conducted as the ATIP coordinator is responsible for tracking ATI requests, time extensions and consulting with subject specialists as well as clarifying, as needed, with requestors. A tracking sheet is used for this purpose.

Statistical Report

The statistical report is attached for the year ending March 31, 2022. This report reflects the formal requests received or handled during the reporting period.

STATISTICAL REPORT – INTERPRETATION AND EXPLANATION

The following is an interpretation and explanation of the information contained in the Annual Statistical Report shown on the previous pages.

I: Requests under the *Access to Information Act*

The CNSOPB received no new requests in 2021-2022. We suspect this is due to lack of activity offshore Nova Scotia.

II: Disposition of Requests Completed

No requests were received during 2021-2022.

III and IV: Exemptions Invoked and Exclusions Cited

Exemptions invoked: none

V and VI: Completion Time and Extensions

During 2021-2022, we requested no time extensions.

VII: Translations

No translation was required in 2021-2022 to respond to requests.

VIII: Method of Access

No requests were received.

IX: Fees

The *Access to Information Act* authorizes fees activities related to the processing of formal requests under the *Act*. A 5\$ fee per request under the *Access to Information Act* is to be submitted with the request application. The current fee structure is specified in the *Access to Information Regulations*. No fees are imposed for reviewing records, overhead or shipping costs.

The *Access to Information Act* permits the waiving of fees when deemed to be in the public interest.

The Board collected a total of \$0 in application fees for zero requests during 2021-2022.

X: Costs

In 2021-2022, the direct cost of administering the *Access to Information Act* totaled \$2,685 in salary costs. These costs are related to responding to the two third party consultations, as well as work on complaints from 2012-2014 which have been closed during this reporting period.

Access to Information Related Education

The Access to Information & Privacy Coordinator attended multiple Access to Information & Privacy Community Meetings virtually throughout the year.
